The purpose of this finding aid is to help you understand the nature of this collection and to assist you in the retrieval of material from this collection. The following pages contain a brief biographical history of the person, or persons, who created or collected these papers; followed by a general description of the collection in the scope and content note. If more detailed information is warranted then series descriptions also appear.

The container listing appears last and is the listing of material in each box, or container, of this collection. To request material you need to turn to the container listing section. It is essentially a listing of file folders, or artifact items, in the collection. Each folder, or item, has a call number associated with it. Each folder also lists the inclusive dates of the material in the folder. On the material request form list both the call number and the folder, or item, title. Use a different line for each folder, or item, requested. When your request sheet is complete, or full, bring it to the archivist and the material will be retrieved.

History Note

In 1939 the Board of Missions and Church Extension of the Methodist Church was created by the uniting conference of the Methodist Episcopal Church, Methodist Episcopal Church, South and the Methodist Protestant Church denominations. The Board would go on to be reorganized in 1952 as the Board of Missions. The records in this series were created by the Foreign Missions division and later the World division of the Board.

Scope Note

The correspondence in this series is composed of both in-coming out out- going letters. Most of these are missionaries who were part of the Methodist Episcopal Church denomination and continued under the Methodist Church board after union in 1939. The correspondence deals solely with foreign mission work.
